Resources:

Human Resources:

- Web Developer (2)
- Database Administrator (1)
- User Experience Designer (1)
- Quality Assurance Tester (2)

Financial Resources:

- Salaries for team members
- Licensing fees for software and tools
- Hosting fees for website deployment

Technological Resources:

- Web development frameworks: .NET Core, C#
- Database management software : MSSQL
- Code versioning and collaboration tools: GitHub
- Automated testing tools: Selenium

Budget:

Personnel Costs:

- Web Developer (2) - $120,000(free as it's a voluntary project)
- Database Administrator (1) - $60,000(free as it's a voluntary project)
- User Experience Designer (1) - $80,000(free as it's a voluntary project)
- Quality Assurance Tester (2) - $100,000(free as it's a voluntary project)

Total Personnel Costs: $360,000(free as it's a voluntary project)

Software and Tool Costs:

- Web development frameworks - free
- Database management software - $5,000
- Code versioning and collaboration tools - $3,000
- Automated testing tools - $5,000

Total Software and Tool Costs: $23,000

Hosting Costs:

- Hosting fees for website deployment - $1,200 per year

Total Hosting Costs: $1,200Total Project Cost:

Total Personnel Costs + Total Software and Tool Costs + Total Hosting Costs = $374,200
As it's voluntary we only need finances for deployment tools, about 100$ monthly.
